About the Check Class Availability Site

The Check Class Availability sites reflect the most current information about classes.
- The sites are organized by institution and term.
- Information is automatically updated each time you refresh/reload the screen.
- The information is publicly available. You do not need to login to view the sites.

What to use Check Class Availability for
Use the Check Class Availability sites to see how many seats are still available in a class. You can also use it to view course reference numbers, instructors, times, locations, etc. Also, you can see if a particular class is being offered during a given semester because not all courses are offered each semester.

What you can't use Check Class Availability for
For pre-requisite and other course requirements, you need to look at the Course Catalog for the appropriate semester. This information is covered in another tutorial.

You also can only browse through classes by Subject. You cannot run a search for a specific class.
