OSAS How-To Tutorial
Check Course Catalog

What to use Course Catalog for

Use the Course Catalog site to see detailed information about a course (i.e., the requirements the course fulfills are detailed here).

The Course Catalog site provides a general description about each course offered.
- The courses available each semester are listed in the Registration Guide (formerly Schedule of Classes) and online at www.hawaii.edu/myuh/manoa.
- Course headings are abbreviated and include a two- to four-letter department code, course number (including alpha suffix, if applicable), title, level, credits, description, repeatability, major restrictions, grade option, prerequisites, co-requisites, frequency, cross-listings, and core designation. For further clarification, please refer to the sample course description on the website.

Using Course Catalog Site

1. Go to the Course Catalog site (http://www.catalog.hawaii.edu/).

2. Click on Course Descriptions.
3. When you see the “Course Description Index” screen, with a list of all of the departments, click on the department under which the course you are interested in is listed. For example, if you are interested in taking an accounting course, click on the Accounting (ACC) link.

You will see a screen that looks like the following. Information for each course includes: two- to four-letter department code, course number (including alpha suffix, if applicable), title, level, credits, description, repeatability, major restrictions, grade option, prerequisites, co-requisites, frequency, cross-listings, and core designation. Important: Prerequisite information is located towards the end of the description (see red box below).
4. Additional information about the course numbering system, general education designation and departments offering diversification courses can also be found on the course catalog site.
