CURRICULUM RESEARCH & DEVELOPMENT GROUP
providing quality educational programs and services

For almost fifty years, CRDG has served the educational community locally, nationally, and internationally. CRDG conducts research and contributes to the body of professional knowledge and practice in teaching, learning, assessment, and school improvement to support students, teachers, parents, and other educators preK-20.

SOME OF CRDG’s CURRENT WORK

Literacy and Hawaiian Education
A partnership with the HIDOE that has delivered evidence-based early reading and secondary student supports to over 51 schools with high percentages of Native Hawaiian children and youth.

A Modeling Approach to Algebra
Student and teacher materials developed for a new HIDOE high school mathematics course.

Measure Up
An elementary mathematics curriculum that uses measurement to teach algebraic concepts.

Teaching Science as Inquiry
Teacher professional development in Aquatic Science; Matter, Energy, and the Environment; Physics; Mechanics; Astronomy.

A History of Hawai‘i
The most widely used text for high school courses on the history of Hawai‘i.

School Internet Safety Initiative
A school-based program for developing web and Internet safe educated behaviors and practices.

Hawai‘i School Health Survey
A partnership with the Department of Health and HIDOE to monitor the health status and needs of students in grades 6-12.

CRDG Summer Programs
Over forty years of summer enrichment learning and exploration, inquiry-based instruction, and hands-on learning in the classroom, laboratory, field, and theater.

ULS Partnership
ULS serves as an experimental site for researching and developing innovations in teaching, learning, and assessment in grades K-12.
