Source: Spring 2013 Initial Licensure Program Alumni Survey. Administered in the Spring 2013 semester as a web-based survey to all COE initial licensure program alumni currently working in the Hawaii Department of Education who graduated between 2007 - 2013. For Initial Program Alumni, 182 of the 938 alumni responded, resulting in a response rate of 19.4%. Percentages for the COE Standards (Knowledgeable, Effective, and Caring) were calculated by averaging the survey ratings for the corresponding Hawaii Teacher Performance Standards (HTPS) survey items.
