Advising
Think about how you’ve done in school in the past:

• Did you generally get your work done on time or ahead of schedule?
• Was technology your friend or mortal enemy?
• Did you usually make enough time to study outside of scheduled lectures?

It’s not about which way is better, it’s about which way is best for you

Hands-on technology

Whether online or on-campus, students in LTEC classes use technology in learning. The emphasis is on integration rather than technology skills.
**Online**

**Advantages**
- Flexible schedule
- No or low travel time and expense

**Disadvantages**
- Strong computer competence required
- High degree of self-discipline required

**Traditional**

**Advantages**
- In-person interactions with students and instructors
- Clear time frame, set schedule

**Disadvantages**
- Travel time and expense
- Low level of schedule flexibility
